

## Customer Service Team

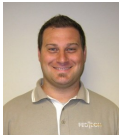

**Dave Fox**

As the President and Co-founder of Fedtech since 1996, Dave has been at the helm, overseeing all departments with a keen eye for detail and a firm commitment to quality. His leadership has played a pivotal role in ensuring the seamless communication between departments - a cornerstone of our customer satisfaction. With his guidance, Fedtech consistently delivers top-tier products that meet and exceed customer expectations. His tenure at Fedtech is a testament to our steadfast dedication to quality, professionalism, and customer-focused service.

**John Bobrowski**

John, a vital asset to our team since 1997, has seen his role evolve into that of Sales Manager here at Fedtech. His dedication and professional prowess make him the perfect fit for spearheading our most significant and challenging projects. John's primary responsibility is to ensure that every project we undertake meets the meticulously set criteria. His keen oversight guarantees the consistent delivery of superior results, reinforcing our commitment to customer satisfaction at Fedtech.

**Kris Cabak**

With over a decade of service under his belt at Fedtech, Kris stands as a testament to the company's commitment to nurturing and growing its talent. His journey began in 2007, and since then, he has been an integral part of our sales team. Kris's extensive background in the metalworking industry, particularly in ornamental and structural iron, adds a layer of depth to the expertise he brings to the table. His industry knowledge, combined with his customer-focused approach, ensures that our clients are always provided with solutions that are tailored to their specific needs.

**Dan Boche**

Dan, a valuable asset to our Fedtech team, has been with us since 2005. His extensive knowledge of the manufacturing industry, coupled with his unwavering commitment to delivering impeccable customer service, has been instrumental to our success. Dan's focus on customer satisfaction, mirrored by Fedtech as a whole, is part of what makes our company a trusted name in the industry.

**Christine Taylor**

Christine has been a pivotal member of the sales team at Fedtech since 2019. Bringing a multitude of years of comprehensive experience within related industries, she has significantly contributed to the growth and success of our company. Her deep industry knowledge, coupled with her exceptional customer-centric approach, has enabled Fedtech to maintain a strong

**Brent Erickson**

Brent has been an integral part of the FedTech team since 2004, demonstrating a profound understanding of our laser and waterjet services. His expertise, paired with his exceptional customer service skills, has been instrumental in our steady growth. Brent's dedication and commitment to enhancing our clients' experience reinforces the quality and reliability that FedTech is renowned for in the industry.

## Precision Manufacturing

*At Fedtech, we understand the importance of delivering comprehensive solutions to meet our clients' unique needs. Beyond our expertise in laser and waterjet cutting services, we provide an array of in-house secondary operations designed to ensure project efficiency and quality. These additional services include welding, forming, machining, assembly, and finishing. Each operation is carried out by our highly skilled team, ensuring that every project detail is handled with the utmost precision and care, right down to the final touch.*

- Welding
- Drilling/Tapping
- Deburring
- PEM Stud Insertion
- Custom Assembly
- Finishing
- Forming
- Machining
- And more!

Your Partner In Manufacturing

## Overview of Fedtech

At Fedtech, we place a heightened focus on several key areas:

- Prompt Communication:** We believe that timely responses are crucial to maintaining successful partnerships. Our dedicated team ensures all inquiries and concerns are addressed promptly and accurately.
- Quality Assurance:** Each part we produce undergoes rigorous quality checks to guarantee compliance with the highest industry standards. With Fedtech, you can be assured of receiving parts that meet your specific requirements.
- On-Time Delivery:** We understand the importance of punctuality in a fast-paced manufacturing environment. Our efficient production and logistics processes ensure your parts are delivered on schedule.
- Technical Expertise:** Our team is comprised of highly skilled professionals with extensive experience in the industry. We are well-equipped to provide solutions to the most complex manufacturing challenges.

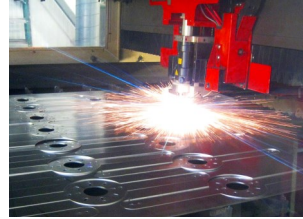

Our commitment to these areas is what makes Fedtech a reliable partner in the manufacturing industry.

At Fedtech, we pride ourselves on our adaptability and versatility in meeting the needs of diverse markets. Our broad-spectrum services cater to an array of industries such as automotive, aerospace, and medical sectors, where precision and reliability are paramount. Furthermore, we extend our expertise to sectors like defense, agriculture, and food, where robustness and efficiency are key. For the recreational vehicle, marine, and trucking industries, we offer solutions that perfectly balance performance and durability.

Regardless of your industry, Fedtech is committed to delivering exceptional quality and unparalleled customer service.

## Laser Cutting Services

At Fedtech, we pride ourselves on our efficient laser cutting services that meet the needs of different project sizes - from small to large. Our advanced technology can accurately cut even the most irregularly shaped parts, ensuring a precise fit for your unique specifications. Importantly, our laser cutting process eliminates the need for costly tooling charges, a significant cost-saving for our customers. As part of our ongoing commitment to delivering top-notch services, Fedtech has two dedicated laser cutting work cells currently in operation. Our professional team is always on hand to support and guide you through the process, ensuring you receive a seamless customer service experience.

**Jason Belz**      **Quality Manager**

Jason's journey with Fedtech began in 1999, marking over two decades of dedication and professional growth within our organization. In his current role as Quality Manager, Jason takes charge of managing Fedtech's Quality Management systems, a responsibility that strategically aligns with our corporate vision and goals. His expertise is not only instrumental in driving improvements throughout our processes but also in maintaining our commitment to delivering quality, customer-focused solutions that Fedtech has been known for.

QUALITY

## Waterjet Cutting Services

Stainless steel, aluminum, titanium, carbon steel, copper, brass, rubber, glass, and various types of plastics are among the materials Fedtech is proficient in processing with our waterjet cutting technology. Our state-of-the-art machines can handle a wide range of materials, demonstrating the flexibility and adaptability of waterjet cutting. This ensures that no matter your project requirements, Fedtech can deliver precision-cut materials swiftly and at a competitive cost.
